ADMIRED AND DISLIKED BRANDS

In today's dissonant consumer landscape, keeping an ear to the ground to view what brands are trending and why with a historical perspective is critical.

SOCIAL CONSCIOUSNESS

To what extent does it motivate buying and among whom? How is it changing and how does personality help us understand how to address this growing need.

COMPANIES AND SOCIAL ISSUES

Tracking of consumers' motivations to open their wallets and buy or to close them and boycott by understanding how brands align with their personal values.

STREAMING WARS & NEW USES OF CONTENT

How do subscribers, cord cutters and stackers compare by personality and culture? Where do people go to follow cultural content?

GEN Z

In what way is this young cohort more assertive about culture and how is that different from prior generations? What are their key behavioral nuances?

ECONOMY/POLITICAL ISSUES

What is motivating in the political space? What behaviors are changing? How does personality influence the issues that people prioritize?

MENTAL HEALTH AND PERSONALITY

What are personality nuances of cultural groups? What are people prioritizing? How can personality be used to interpret and create authentic cultural connections?
